

The next step in the evolution of **HEALTH SUPPORT IS HERE**

With **over one million patient sessions to date**, Pulse Centers has laid a new foundation for achieving pain-free, optimal health with Cellular Exercise.

The restored energy delivered by dynamic Cellular Exercise gives cells the power to:

- Increase circulation • Expel cellular waste • Absorb nutrients
- Rebalance electrical charge • Reduce pain

In the spotlight

On December 5 2011, Dr. Oz aired a special show on the pain-relieving effects of this ground-breaking therapy...

"What if you could harness this powerful force field inside of you to feel better, sleep longer, and, most importantly, ease your chronic aches and pains?"

That's the promise of magnetic therapy. It uses the power of magnetic energy to redirect electrical impulses to the areas where you feel pain, so relief can begin."

Dr. Mehmet Oz

Professor of Surgery, Columbia University
Emmy-winning host of the *Dr. Oz* television talk show.

"There's no technology that I've come close to seeing that has this level of efficiency and consistency in being able to dramatically reduce pain."

Dr. Martin Milner

Center for Natural Medicine Professor, Portland OR

"I thought this was too good to be true. You couldn't just lay on this bed basically and take a nap and have it work, take away your pain and make you feel better - but that's really how it works"

Kathleen Peterson

Artist, Clear Lake, MN

"Our patients began to demand that we use it with them on each office visit because of the positive results!"

Dr. David Lee

Wellness Revolution, Woodstock, GA

Introducing a **REVOLUTIONARY THERAPY**

Feel more energized, sleep better, and reduce your chronic pains...

Disease manifests when impaired nutrient flow and waste accumulation inhibits the cell's natural repair cycle. Restoring these elements is without a doubt the key to the overall health of your body.

“All people have to do is experience the system and they realize, *Oh my gosh, it sounds too good to be true, but this time it's what they say it is.*”

Dr. James Augustine
Ahead to Wellness, La Palma, CA

PEMF is passive exercise

“Pulsed electromagnetic therapy may be one of the greatest discoveries in the history of medicine.”

Dr. David Williams
Alternatives for the Health Conscious Individual (March 2004)

REDUCE YOUR PAIN IN JUST MINUTES

The next step in the evolution of health support is here...

ENERGIZE the natural healing power hidden within each and every cell of your body

- Alleviate pain and reduce inflammation
- Stimulate tissue healing & strengthen bones
- Relieve injury and fatigue
- Support neurotransmitter balance
- Reduce stress & increase relaxation
- Achieve a deeper, more restorative sleep

was diagnosed with severe arthritis. I no longer have any elbow or lower back pain, and my knee is a lot better than it was. There's nothing else I can attribute it to except for the fact that I haven't had any other treatments."

Dr. Vandette
Woodstock, GA

A Fruitful Analogy of Cellular Vitality...

Imagine a cell in your body as a fresh grape; healthy, vibrant and alive. Now imagine that same cell as a raisin, once a vibrant grape, drained and dry of all its vitality. This illustration of cellular decay is similar to what happens as our cells can no longer receive vital water, minerals, and other nutrients.

Disease manifests when impaired nutrient flow and waste accumulation inhibits the cell's natural repair cycle. Restoring these key elements is without a doubt the key to overall health of your body.

“There's no technology that I've come close to seeing that has this level of efficiency and consistency in being able to dramatically reduce pain.”

Dr. Martin Milner

Center for Natural Medicine Professor, Portland OR

ENERGIZE the natural healing power hidden within each and every cell of your body

- The bioelectric energy of healthy cells are vital for metabolic processes.
- When the cells drop their electrical charge to a certain level, they become sick.
 - The first sign of illness is usually pain.
 - Chronic disease (pain) is always defined by low electrical charge.
 - The body can heal almost anything with proper nutrients and electrical charge.

"I thought this was too good to be true. You couldn't just lay on this bed basically and take a nap and have it work, take away your pain and make you feel better - but that's really how it works"

Kathleen Peterson

Artist, Clear Lake, MN

Healthy cells are the foundation to GOOD HEALTH

CELLULAR EXERCISE

supports the healthy natural function of your cells

Your next step in pursuit of vibrant health!

Life is energy

and all energy is **electromagnetic**.

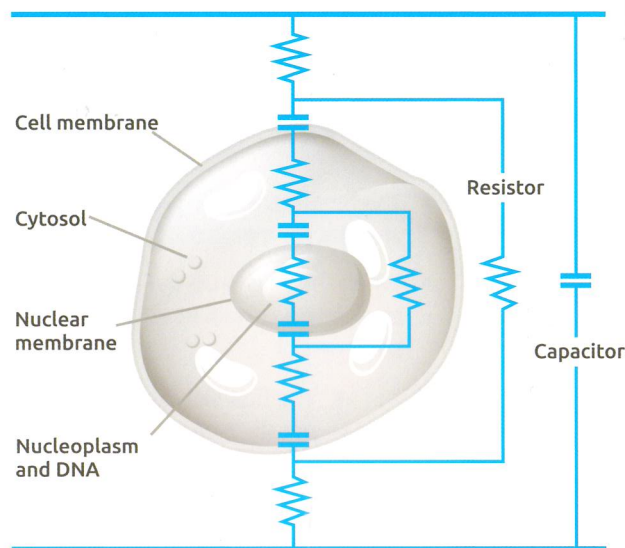

Brilliant scientists such as **Nikola Tesla** have made profound discoveries concerning the nature of energy and life. Their research has revealed that each of the 75 trillion cells in your body work as independent electrical circuits, accumulating and holding an electrical charge.

Dr. Jerry Tennant, MD, author of *Healing is Voltage* explained how optimal health is always defined by the voltage of our cells, stating: "The cells in the body are designed to run at -20 to -25 millivolts. To heal by making new cells, we must achieve -50 millivolts. We get chronically sick when voltage drops below -20 millivolts."

Time and time again science has demonstrated how the application of electromagnetic fields can restore the body's natural ability to deliver nutrients to stressed and damaged tissues.

"I was diagnosed with severe arthritis. I no longer have any elbow or lower back pain, and my knee is a lot better than it was. There's nothing else I can attribute it to except for the fact that I haven't had any other treatments."

Ron Vandette
Retired, Woodstock, GA

Cellular Health is Physical Health

Pain and discomfort are simply signs of cellular imbalance and disease.

Tesla was the first to demonstrate the healing principles of electromagnetic fields and his research evolved over time into what we now know today as Pulsed Electromagnetic Field therapy (PEMF). Used worldwide, and as a standard therapy in Europe for decades, PEMF is the targeted application of penetrating electromagnetic energy delivered in billionths-of-a-second pulses to support the innate healing functions that keep you well.

The New Generation of Health Support

Safer and more effective, the bio-compatible electromagnetic pulses of PEMF Exercise systems not only recharge the cell, they also penetrate the cell walls and cause them to contract. Exercising cells this way speeds up healthy circulation of nutrients and expulsion of toxins, allowing the body to rejuvenate as it should and is proven to help:

- **Alleviate** pain and reduce inflammation
- Stimulate tissue **healing** & strengthen bones
- **Relieve** injury and fatigue
- Support neurotransmitter **balance**
- Reduce stress & increase **relaxation**
- Achieve a deeper, more **restorative** state of sleep

Cellular Exercise Systems

With **over one million patient sessions to date**, Pulse Centers' PEMF Exercise systems have made a significant contribution to the health and quality of life for patients worldwide. Powerful and precise, their magnetic fields have been measured at over **3 times greater** than any other machine on the market.
